

# QUALITY POLICY

Amromco Energy is committed to providing quality products and services to its clients in a consistent and well-defined manner. The company recognises that to achieve this it must be capable of identifying problem areas, defining solutions, implementing suitable corrective measures and subsequently reviewing the effects of such measures; also that this process needs to be a continuous and integral part of its operations.

We are committed to:

- Ensure that the Quality Policy is communicated to all Amromco Energy employees through display, meetings and training programmes;
- Apply appropriate technology to deliver high quality performance with support of competent, result oriented people and provide the necessary resources to achieve Stakeholders satisfaction;
- Systematically review and improve the Quality Management System by carrying out regular internal audits;
- Support and promote Quality awareness in Amromco Energy employees by providing suitable training and education on quality issues;
- To meet specified customer requirements and ensure continuous customer satisfaction;
- Maintain certification and continually improve the Quality Management System using the reference standard ISO 9001:2015;
- To establish strong relationships with suppliers as well as stakeholders, this should contribute to continuous improvement of processes and establish transparent and sustainable relations.
